CALLIGRAPHY CLASS
WITH ANNE MERYDITH & KAY BECKHAM

Explore calligraphy in a fun environment by learning Italic, the beautiful & graceful hand of the Renaissance.

If you're a beginner, you'll receive a strong introduction to calligraphy. If you've been at it awhile, we'll explore some variations on this basic alphabet. Hands-on instruction and weekly class projects will pull together the letters and basic design elements.

Anne will be the main instructor for the alphabet. Each week, Kay will take the class through design techniques. All elements will culminate in completed projects.

Anne started her love affair with calligraphy in 1975 while a student at Portland State University and has continued her study through workshops and classes with some of the top teaching calligraphers. She has taught through the OSU Craft Center, Linn-Benton and Lane community colleges, and the Lawrence (Kans.) Arts Center.

Kay took Reggie Ezell's year-long class, teaches locally including through Lane Community College, and sells her art through local craft fairs.

Come join these two fun teachers of letters and layout. The class is at a beginning level, but more advanced students are welcome.
